Perseid Meteor Shower

August is a wonderful month for star gazing! It's the month of the Perseid Meteor Shower, which peaks between August 11 and 13. This year, the Perseids reach their peak just a few days after the new Moon (August 8), which means that the Moon's usual brightness won't wash out too many of the "shooting stars"!

Camping & Cooking!

Since we've had to cancel out Campfire Cookout events for the time being, we've decided to put together a little cook book! Share your favorite campfire or camping recipes with us and next month we'll distribute them for everyone to enjoy! Just drop your recipes off to the clubhouse!

Weather Preparedness

We would like to take this time to remind our guests to be careful when placing things in your lots. Canopies, awnings and tents can be pulled out of the ground, or torn straight off of their supports. Please make sure these are properly taken down and put away to avoid damage. In the event of tornado's and high winds, our bathhouse may be used as a shelter.
